United States v. Clint Robert Schram

Case No. 20-06002-01-CR-SJ-SRB

Notice of Appeal, Request New Trial

- Ineffective Council
- Was not allowed to view, see, study discovery until trial May 8-9-10. Took trial notes of discovery. Have more information available how to defend myself against those erroneous allegations.
- Was not allowed the use of CPAP medical device for 3+ years. No REM Sleep. Has caused mental disturbance from the cumulative result of lack of REM Sleep. (Still have not been allowed use of CPAP even though medical has provided one. Staff will not allow me use of it.)

I request a new trial after stabilizing mental health from lack of REM Sleep
